Turkish-German Health Foundation

Dear colleagues,

it is our pleasure to invite you to attend the 2nd Turkish-German Transplantation symposium in Gießen organised by the Turkish-German Health Foundation and the Department of General, Visceral, Thoracic, Transplantation and Pediatric Surgery, Justus-Liebig-University of Gießen.

All scientific lectures will take place at the Biomedical Research Centre Seltersberg.

The Transplantation Symposium, held in Malatya in the last year, was a stimulating meeting and gave a great update in transplantation surgery. We are proud to welcome expert lecturers from both, Turkey and Germany, in Gießen and intend to cover not only what is new in the field of transplantation, but also illuminate interesting ethical and organisational topics of transplantation.

Our objective is to expand the high bar of expectation set for us by the previous transplantation meeting, held in Malatya last year.

We are really honored to welcome you in Gießen from May 10th-11th 2012.
